Sir,

I am happy to inform you that I was selected for the **BIOZONE ICON AWARDS 2018**, under the **SCIENTIFIC EXCELLENCE -SENIOR** category. The awards are given during the two days conference on 26th & 27th February 2018 at BIOTRENDS conference which will cover expert lectures in the field of Stem cell Biology, Herbal research, Human Genetics, Advanced Bioinformatics and natural Drug Discovery. Scientists of prominence will be delivering lectures at BIOTRENDS 2018. The selection for the award also entitles a complimentary participation in the conference on both days. So I kindly request you to grant me permission to attend the conference and receive the award.

Thanking you,

Yours faithfully,

A. Julius

Students Industrial Visit Report – Delta Labs

The students from Sree Balaji Dental College and Hospital, Bharath Institute of Higher Education and Research, Pallikaranai, Chennai - 600100 visited the procedural equipment's for research in delta labs on 19-12-2019.

1. Sand blasting equipment's and accessories
2. Casting equipment's
3. Model preparation equipment's
4. Waxes, instruments & wax
5. Ceramic and composite accessories
6. Cast partial equipment's
7. Acrylization equipment's
8. Lab workstations
9. Imported Equipment's

Detailed information of Delta Labs

1. Sand blasting equipment's like twin blaster, ideal blaster, divestor, dual blaster, and eco-blaster are used.
2. Casting machine is for casting of dental alloys with centrifugal force. Melting is done with external flame. Still Rings are set of casting rings made of highly flexible silicone for the ringless casting technique.
3. Model trimmer for trimming and shaping plaster models. The trimmer is washed by a shower- shaped spout, which avoids splashing.
4. Uni wax, margin wax, press wax are the various waxes used for crown and bridge, metal ceramics.
5. Blu-lux is a light curing unit used for curing light curing trays for the fabrication of custom impression trays. It is also used for post curing 3D printed resins and light curing pattern resins.
6. Double workstations are used for wax procedures and ceramic work.

The students got exposed to all the equipment's and gathered knowledge about the Research and Development. They understood the materials used and procedures to fabricate the above equipment's. They were explained the mechanics behind the functioning of dental equipment. They were explained the methods to diagnose certain problems which

may occur if the equipment is improperly operated and the procedure to rectify the problem.
