Dear Sir,

Sub: Permission for Industrial Visit – Reg.

On behalf of Bharath Institute of Higher Education and Research where I serve as the Head of the Department, I wish to request for permission to conduct an industrial visit at your company DELL. Our school is reputed at providing quality education in the various engineering courses in Chennai.

We wish to undertake an industrial visit at your company on 10.10.2019 to acquire practical knowledge in Signals & System. Our academic curriculum focuses on engaging students in practical experiences to observe the implementation of what they are taught in University. We believe that your company will give our students relevant knowledge during this visit.

A group of 75 students in 3rd year and two faculty members intend to participate in this industrial visit. Kindly make arrangements for a tour in the relevant departments in your company.

Please allow us to conduct an industrial visit to your company and meet your skilled employee. Kindly contact us on hodcse@bharathuniv.ac.in if there are other requirements for the visit.

Thank you in
advance.

Yours
faithfully,

Prof. & Head, Dept. of CSE

About the Organization:

An Industrial visit to Dell Technologies was organized by the Department of IT, Bharath Institute of Higher Education and Research, on 10th October 2019. Providing students an exposure about Practical working environment was the aim of the Industrial visit. Dr. A. Kumaravel and Mrs. Magdalene Peter had accompanied students in the Industrial Visit.

All the students had assembled at around 9.00AM in the university campus and departure to Dell Technologies was at 9.30AM. The destination was reached at 10.30AM. The industry which we visited was Dell Technologies at 11.00 AM. The HR helped all the students in knowing the various operations that involved in the company through practical exposure of each and every function of various departments that has been performance involved.

About the Dell Technologies its ancestry back to two goldsmith technologies, John Freame and Thomas Gould, who were doing business in Lombard Street, London in 1690. In 1736, Freame's son, Joseph took his brother-in-law, James Barclay on as a partner, and the name has remained a constant presence in the business ever since.

DELL was built over centuries. Our longevity is an extraordinary achievement, especially against the backdrop of multiple financial crises, international conflicts, and the agricultural, industrial and now technological revolutions.

This story is best told through our rich archive of photographs, ledgers, letters, minute books, equipment and a range of, in some cases unexpected, curiosities housed in the DELL Group Archives in Manchester, UK. The material in these archives is unique, irreplaceable and priceless. They don't just tell the story of DELL' businesses around the world, they also communicate the strength and depth of the Values that have underpinned DELL from the very beginning.

And it's not just the story of a software company – it is the story of the communities that we serve, as well as our colleagues, our buildings, and our products. The archives allow us to share those stories.

At 4.00PM, all the students and faculty members reached the campus and disbursed. On the whole, the industrial visit was very fruitful as all the students got exposure to practical learning that is how theoretical concepts are put into action; it helped the students to improve software operations in world wide.
