Date: 02.12.2019

To

Mrs. N. Sivajothy, M.Sc., B.Ed(Admin)
Managing Director,
Kidney Centre Hospital
206, Anna Salai,
Pondicherry- 605001

Dear Sir,

Sub: Request for Training for Final MBBS – Reg.

As a part of the curriculum for MBBS Course , Sri Lakshmi Narayana institute of Medical Sciences & Hospital (BIHER) Puducherry , final year students have to undergo internship training program. Students are willing to undergo one month internship training program at your esteemed Kidney Centre Hospital.

Hence I kindly request you to grant permission to do the program at your Kidney Centre Hospital , Pondicherry from Dec 16th 2019 to Jan 15th 2020 ,25 students will do internship program. Kindly do the needful.

I am looking forward for your positive reply in this regard.

Thanking You

With regards
DEAN

Prof.K.BALAJIRUNASWAMI M.S
(General surgeon)

KIDNEY CENTRE HOSPITAL

Date:09.12.2019

To

Dr.K.Balagurunathan, MS(G.Surg.)
DEAN
Sri Lakshmi Narayana Institute of Medical Sciences,
Pondicherry.

Sir/Madam

Sub: Request for Training is Final MBBS – Reg.

With reference to your Letter dated 01/12/2019 regarding internship Program for one month, we permit your Sri Lakshmi Narayana Institute of Medical Sciences students to our Kidney Centre Hospital, 206, Anna Salai, Pondicherry from 16/12/2019 to 15/01/2020.

Thanking You,

R. Swapathi

With regards,

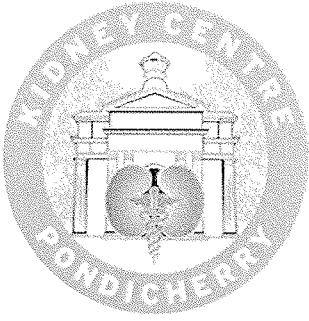

206, Anna Salai, Pondicherry – 605001.

KIDNEY CENTRE HOSPITAL

Services to be offered at Kidney Centre Hospital:

Medical Service:

NEPHROLOGY: The Nephrology services can be classified into 5 sections based on different stages of treatment. They are:

➤ **Clinical Nephrology service:**

This service is part of the out-patient department (OPD) at KCH. OPD takes care of the consultation and medication of kidney related ailments. This department also monitors the creatinine and haemoglobin levels of the patients.

➤ **Haemodialysis Unit:**

Kidney centre hospital is planned to have a well-equipped Haemodialysis Unit with 12 state-of-the-art dialysis machines and well trained dialysis professionals. It has a highly specialized Reverse Osmosis Plant, for purified water for dialysis. It offers dialysis for both out- and inpatients with end-stage renal disease (ESRD).

➤ **Continuous Ambulatory Peritoneal Dialysis (CAPD) Centre**

CAPD centre on par with facilities in European countries is established mainly for home dialysis i.e ambulatory peritoneal dialysis. This facility is especially for diabetes, elderly and cardiac patients.

➤ **Post Renal Transplant Clinic:**

Part of the OPD, post transplant monitoring of the patients is carried out by this team. Patients usually visit twice a month for regular monitoring of creatinine and haemoglobin

➤ **Cycler Dialysis:**

The treatment is same as CAPD. But it involves an automated cycler which is costlier than CAPD. Kidney Centre proposes to offer all the treatment options available to the patients. Kidney Centre Hospital will have the infrastructure to offer all the treatment options as above. 5

Other Services:

1. Laboratory Services:

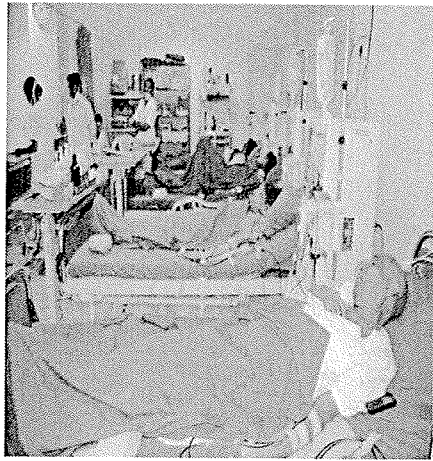

KCH is proposed to have a 24 X 7, a fully computerized laboratory manned by qualified laboratory techniques. Laboratory has facilities for Clinical Biochemistry and Hematology. A special investigation for renal diseases is a highlight of the laboratory. Biochemistry department will have the latest multi-channel auto-analyzer and electrolyte analyser. In the haematology department there will be electronic cell counters, blood coagulometers etc.

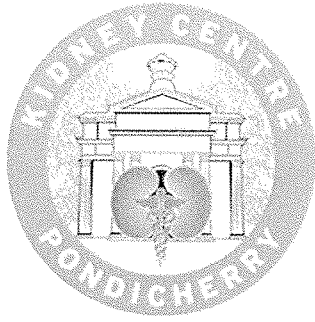

2. Pharmacy Service:

The planned hospital will have the facility of indoor Pharmacy round the Clock which is very useful and also save the time of the Patient.

3. Maintenance Services:

Electric supply, public health services for water supply, sanitation and fire fighting systems, space heating, ventilation and air-conditioning for environmental management of essential areas in the hospital including intensive care, critical, Dialysis and operative care areas, selected intermediate care areas and laboratories. Heater for hot water supply during winters will be also available to the patient. Sewage Treatment is to be done before flushing it to Bio medical waste system. Communication services comprising of integrated network of EPABX, public address; medical gases and vacuum services to provide un-interrupted supply of Oxygen & Nitrous oxide, and central vacuum to intensive, critical and operative area Diesel Generators and Invertors / UPS will be provided to supply uninterrupted power to all areas especially to critical floor.
