173, Agaram Road, Selaiyur, Tambaram,  
Chennai - 600 073. Tamil Nadu.

Date: 25.06.2019

From  
Head of the Department,  
Department of Mechanical Engineering  
Bharath Institute of Higher Education and Research  
Chennai – 73.

To  
The Dean Engineering  
Bharath Institute of Higher Education and Research  
Chennai – 73.

Respected Sir,  
Sub: Requesting for Industrial Visit – Reg.

I am writing to you to request for Industrial Visit for our III year Mechanical Engineering Students. Totally 66 students Herewith, I have enclosed the Student Name List.

We request you to approve the Industrial Visit in the NEYVELI POPULAR AUTOMOBILES, Panruti Tk, Cuddalore dist and do the necessary Transportation facility for the students and staffs.

Thanking you sir,

Dr.K.Balasubramanian  
PROFESSOR AND HEAD  
MECHANICAL DEPT

Shri Pachavazhiyamman Thunai

To,  
The Head of Department,  
Mechanical Department,  
Bharath Institute of Higher Education and Research,  
Chennai - 600073.

01.07.2019

Dear Sir/Madam

*Subject: Approval letter for industrial visit*

With respect to your letter dated 25.06.2019, herewith we are approving the industrial visit to you for visiting to our industry.

The date for the industrial visit is scheduled as 10 July 2019 and can be altered as per the request from your side.

Thank you for your interest.

*K. Perleris*  
Regards

For Neyveli Popular Automobiles

## INDUSTRIAL VISIT REPORT

Industrial visit is a vital part of engineering courses. It help Bridge gap between classroom and real world. Through industrial visit engineering students are opened to real world, where they get to know what is engineering and what is their future profession. One of the important objectives of engineering courses is desire prepare graduates to quickly become productive upon entering the workforce. Therefore industrial visit make students understand the subject to its core and its deeper practical experience in real field situation. Universities apply different methods to corporate practical experiences and real world applications into their curricula to prepare students for the technical challenges they might face in workplace. Industrial visit is providing you an opportunity to gather information about your academic lessons, which cannot be visualized in classrooms .But nowadays the main objective behind the industrial visit, is not fulfilled. Students are just visiting the companies for name sake. They are unaware about the importance of industrial visit. Many experts made studies on importance of industrial visit in a student's career .As per expert view; industrial visit is one of the most important factors in technical education. A good industrial visit will give the students an opportunity to learn things practically in a real-time functional environment through interaction, witnessing the working methods and clarifying the doubts from experienced workers .There is a lot of difference between the information we get from books and what we earn by seeing.

### NEYVELI POPULAR AUTOMOBILES

#### INTRODUCTION:

Neyveli Popular Automobiles is an automobile spare parts manufacturing company and a service centre. Products and services are created on demands of the customer or client.

The visit was scheduled at 2.30 PM and a bus was arranged to facilitate the visit from the college. We reached the POPULAR AUTOMOBILE campus at 1.45 PM followed by a lunch. The students also had a chance to interact with few production managers in understanding the concepts better.

The students were then divided into two groups. The first department the students visited was the Forging Department which was followed by machining Division where they saw and learnt about injection molding machines. After visiting machining Division they visited Tool Room Division where clutch plate etc are manufactured with the help of Vertical Milling Machine. After that the students visited Technical Training Room.

They had question and answer session after their manufacturing division visit. The students were also served refreshments. The visit was very fruitful for students as they understood very well about the manufacturing process of various automotive parts widely used in two wheelers to tractors in India.
