ACKNOWLEDGEMENT

I am, CHINNARASU M I-year LL.B., (Hons.) student of Bharath Institute of Law, Bharath Institute of Higher Education and Research, Selaiyur, Chennai – 600073 with register number U22DL035, do hereby acknowledge that:

I am sincerely grateful for this internship opportunity given to me by my senior, Advocate Mr. S.N. SUBRAMANI in his chambers. I am thankful for every document I was assigned to work with, every case I was asked to follow, every chance I got to observe the Court proceedings. Each and every task taught me the underlaid law and I am indebted for every minute which he took from his day to teach in depth for any doubts or questions I had. I am truly glad I did this internship programme under Advocate Mr. S.N. SUBRAMANIAN and I deeply appreciate the knowledge and experience I gained from this internship. For all these efforts of my senior and his associates I am wholeheartedly obligated and forever bound and thank.

INTRODUCTION

The internship programme was open in the office of the renowned Advocate Mr. S.N SUBRAMANI, former practising Advocate in the Madras Bar Association. Advocate Mr. S.N SUBRAMANI laid a strong foundation in both Civil and Criminal side for over a decade stationing in Chennai. Being a first generation lawyer and with an ulterior motive to become the voice of the voiceless Advocate Mr.S.N SUBRAMANI, took up his passionate profession in Law. The nature of internship work in his chambers were partly from civil and mostly from the civil side. His office showed expertise in Contract and Specific Relives, Criminology, Labour and many more which was fascinating to me as an intern. After joining in his office, I was able to quickly grasp the law in action with his kind approach towards the interns and passionate teaching skills.

INTERNSHIP DIARY

January 13, 2023

On the first day of my internship, I met the renowned Advocate Mr. S.N SUBRAMANI. He gave a brief explanation to us interns, explained what to expect out of this internship and the cases they take up, the work they would come across in the profession and the mannerisms in which the clients and their problems to be dealt with.

January 24, 2023

Before going to the Court, I used to mark my presence along with the other interns in my senior's chamber. I used to get the brief of the cases to be filed and proceedings or trial (if any) or any other work to be done from the senior or his associates.

January 27, 2023

Morning our senior informed us about the examinations he had on the hearing listed for that particular day. After the Court proceedings, I got a chance to discuss with the senior about the number of records maintained by the Police in each case and on daily basis.

February 01, 2023

Morning the senior stationed me at the Hon'ble High Court. After observing the Court proceedings, I had many doubts watching the proceedings and cleared them all with the senior's associate after coming back to the chambers.

February 03, 2023

After reaching the Chambers, I was informed that the senior was on leave for personal reasons and I was instructed to represent some cases through the other members of the Bar Association, Madras.

February 06, 2023

After the Court proceedings, the senior taught me about the ingredients about CS (Civil Suit) and the matters that can approach the Hon'ble High Court directly and assisted in arbitral proceedings.

February 10, 2023

On the last day of the internship, I was asked to draft my internship certificate and was asked to add all the things I learnt through this internship programme. I wholeheartedly thanked my senior and his associates for this opportunity and their welcoming hospitality for making me feel comfortable to be a part of their team.

OUTCOMES OF THE INTERNSHIP

This internship programme in the office of Advocate Mr. S.N SUBRAMANI, pushed me a step closer to becoming an advocate. My senior's constant support and a bit of hard work on my part let me gain a lot of knowledge and experience in the various fields of laws and a variety of Courts. This internship programme had a direct impact on my personality. The challenges given to me, made me better at communication. Being able to break the ice in any first meetings was a hard found skill which was given to me in a silver spoon through this internship. Being able to act professionally in difficult situations are some of the basic skills which I lacked before this internship, this programme made me realize the pros and cons I have and the areas which needed immediate attention.

CONCLUSION

This internship experience was a gem to be cherished. I highly value the knowledge which I have gained in various fields of law through this programme. This internship programme taught me that lawyering is not just a profession to mint money, it can also be a medium to find inner peace by being the voice of the voiceless. In conclusion, it is of my opinion that working in lower Courts not only sharpens our basic skills but also teaches us to be better human beings.
