

A Cross sectional study to determine the Prevalence and risk factors of Diabetic Peripheral and Cardiac Autonomic Neuropathy among type-II Diabetic out patients in Kurnool

A Thesis

Submitted by

B.V.SURENDRA

(Reg.No.D16MS503)

in partial fulfilment for the award of

the degree of

**DOCTOR OF PHILOSOPHY
(MEDICAL PHYSIOLOGY)**

Under the Supervision of

DR. N. S. MUTHIAH

FACULTY OF MODERN MEDICINE

DEPARTMENT OF PHYSIOLOGY

BHARATH INSTITUTE OF HIGHER EDUCATION AND RESEARCH

CHENNAI – 73.

JUNE 2022

BONAFIDE CERTIFICATE

Certified that the thesis titled “A Cross sectional study to determine the Prevalence and risk factors of Diabetic Peripheral and Cardiac Autonomic Neuropathy among type-II Diabetic out patients in Kurnool” is the bonafide work of Mr.B.V.SURENDRA (Reg. No D16MS503) who had carried out the research under my supervision.

Certified further, that to the best of my knowledge the work reported herein does not form part of any other thesis or dissertation, on the basis of which a degree or award was conferred on an earlier occasion of thesis of any other candidate.

SUPERVISOR

ACKNOWLEDGEMENT

It gives me immense pleasure to thank everyone who have helped me during the course of my study and in preparing this doctoral Thesis.

With a deep sense of respect, I take this opportunity to express my profound gratitude towards Dr. N. S. Muthiah, M.D., Professor, Department of Pharmacology, Balaji Medical College and Hospital, Chennai, under whose able guidance the present study was carried out. I am thankful for his expert suggestions that contributed a lot to planning and executing the present study.

I sincerely thank Dr. S. Muneeruddin Ahmed M.S., Principal, Viswabharathi Medical College and General Hospital, Kurnool for the academic support and facilities provided to carry out the research work at the institute.

I express my gratitude to Dr. M. V. Sailaja, M.D., Professor and Head, Department of Physiology, Viswabharathi Medical College and Hospital, Kurnool for her constant encouragement and valuable suggestions during this study.

I would like to express my very sincere gratitude to my doctoral committee members Dr. E. Sukumar, Former Dean (Health Sciences), Saveetha Deemed University, Chennai; Dr. K. Sreenivasulu, M.D., Professor of Anatomy, Viswabharathi Medical College, Kurnool and Dr. Prabhu, Associate Professor of Anatomy, Balaji Medical College and Hospital, Chennai for their support and valuable inputs to make this thesis possible.

I am incredibly grateful to Dr. V. Kanagasabai, honorable Vice-Chancellor, Bharath Institute of Higher Education and Research (Bharath University), Chennai and Medical Director Dr. R. Chidambaram, Professor and Head, Department of Radio-diagnosis, SLIMS, Puducherry for their invaluable support to the work. I am also grateful to Dr. M. Sundararajan, Dean (Research & Development), Bharath Institute of Higher Education and

Research, Chennai, for enabling me to carry out this work successfully.

I thank all the study participants for their wholehearted co-operation in making this work successful.

My sincere thanks to my parents Sri. B. Venkata Ramana and Smt. B. Lakshmi Devi and my wife Mrs. C. Radha for their keen interest in my academic pursuit.

Special thanks go to my lovely children, Master ***B.V. VARUN SAI*** and ***B. V. DARSHAN SAI*** for their love and understanding, which catalyzed the research work. I wish to dedicate this work to them.

Last but not least, my appreciation goes to my friends for sharing their ideas, co-operation, and timely help the successful completion of my research work.

B.V.SURENDRA
