

**BIOEQUIVALENCE AND *IN VITRO-IN VIVO*  
CORRELATION STUDIES ON IMMEDIATE  
RELEASE ORAL DRUG DELIVERY SYSTEMS**

**A THESIS**

*Submitted by*

**S. POONGOTHAI**

[Reg. No. D19PM501]

*In partial fulfilment for the award of the degree*

*of*

**DOCTOR OF PHILOSOPHY**

**Department of Pharmaceutical Sciences  
FACULTY OF PHARMACY**

**BHARATH INSTITUTE OF HIGHER EDUCATION  
AND RESEARCH  
CHENNAI – 600 073**

**NOVEMBER 2023**

## **DECLARATION**

I, **S. POONGOTHAI** declare that thesis entitled “**BIOEQUIVALENCE AND IN VITRO-IN VIVO CORRELATION STUDIES ON IMMEDIATE RELEASE ORAL DRUG DELIVERY SYSTEMS**” is the bonafide research work of mine, which was carried out under the supervision of **Dr. R. SRINIVASAN**. I declared further that to the best of my knowledge the work reported herein does not form part of any other thesis or dissertation on the basis of which degree or award was conferred on an earlier occasion on this or any other candidate.

Date: 29.11.2023

Place: Chennai

**Signature of the Candidate**

**S. POONGOTHAI**

**[D19PM501]**

## **BONAFIDE CERTIFICATE**

Certified that this thesis titled “**BIOEQUIVALENCE AND IN VITRO-IN VIVO CORRELATION STUDIES ON IMMEDIATE RELEASE ORAL DRUG DELIVERY SYSTEMS**” is the bonafide work of Ms. **S. POONGOTHAI** [Reg. No. **D19PM501**] who carried out the research under my supervision.

**Certified further, that to the best of my knowledge the work reported herein and in the publications by the scholar does not form part of any other thesis or dissertation, on the basis of which a degree or award was conferred on an earlier occasion of thesis of any other candidate.**

SUPERVISOR

Signature of the Supervisor with official Seal

*Dedicated to*

*My Beloved Parents and Teachers*

## ACKNOWLEDGEMENT

I would like to express my deepest gratitude and sincere appreciation to the following individuals and institutions for their invaluable support and contributions to the completion of my Ph.D. thesis:

My sincere thanks to our Honorable founder and Chairman **Dr. S. Jagathrakshakan**, Honorable President, **Dr. J. Sundeep Aanand** and Managing director **Dr. E. Swetha Sundeep Aanand**, Bharath Institute of Higher Education and Research, for their kind words and enthusiastic motivation which has inspired me a lot in completing my research work.

I would like to express my deep gratitude to our Pro Chancellor **Prof. K. Vijaya Bhaskar Raju**, Vice Chancellor **Dr. M. Sundararajan**, Pro Vice Chancellor (Research) **Dr. S. Suresh Kumar**, Registrar **Dr. S. Bhuminathan**, Additional Registrar **Dr. R. Hariprakash**, Controller of Examinations **Dr. R. M. Suresh** who are responsible for molding my thoughts in completing my research.

I am grateful to **Dr. A.P. Naveen Chandran** (Dean R & D) for his constant encouragement and providing facilities during the course study of my research work.

I am extremely grateful to my supervisor, **Dr. R. Srinivasan**, Dean (Pharmacy) & Professor, Faculty of Pharmacy, Bharath Institute of Higher Education and Research, Chennai, for his unwavering guidance, continuous support, and insightful feedback throughout the entire research process. Apart from my Supervisor, I won't forget to express the gratitude to the faculty members of Bharath College of Pharmacy for giving the encouragement and sharing insightful suggestions.

Professor **Dr. R. Ilavarasan**, Assistant Director, Captain Srinivasa Murthi Drug Research Institute for Ayurvedha and Siddha, Arumbakkam,

Chennai, has been a constant source of inspiration and motivation throughout the research process. I am grateful for the numerous discussions and meetings we had, where he patiently listened to my ideas and provided constructive feedback which pushing me towards excellence.

I would like to give a special mention to **Dr. Akilan Ramnathan**, Chairman, Aksheyaa College of Arts and Science and **Dr. R. Krishnamurthy**, Professor (Rtd) IIT Madras for their invaluable support in completing my research work.

I would like to place on record my special thanks to the members of the Doctoral committee who rendered timely help and support.

I am grateful to **Orchid Healthcare Ltd.**, Chennai for doing my research work and thankful to my head R&D **Dr. P.Y. Naidu** and colleagues **Mr. V. Balaji, Mr. Rajasekhar Reddy and Ms. B. Madhavi** in Orchid for their non-stop and intellectual discussions in the laboratory. Their feedback and diverse perspectives have been invaluable in shaping my research ideas.

I recall the kind efforts of **Prof. Dr. M. Sriram** and **Ms. E. Shanthi** of R&D section for their timely support and efforts during my crucial period of research work.

I express my affectionate thanks to my dear husband **Dr. S.Arul** and family members who motivated me throughout and rendered support in the completion of this research work successfully.

In summary, I am deeply grateful to everyone who has played a part, big or small, in my Ph.D. journey. Your contributions are sincerely appreciated and have made a significant impact on the successful completion of this thesis. Omissions if any are due to oversight and not intentional.

**S. Poongothai**

## LIST OF TABLES

<b>Table</b>	<b>Title</b>	<b>Page</b>
2.1	Findings based on BCS of pharmaceuticals.....	16
2.2	IVIVC expectations for IR dosage forms based on BCS .....	18
2.3	Road map of Level A IVIVC model .....	26
3.1	Parameters for dissolution test of Gemifloxacin .....	34
3.2	Mathematical models used .....	38
4.1.	Release percentage of Gemifloxacin .....	50
4.2.	Release of Gemifloxacin% .....	51
4.3	Standards of MDT and MAT .....	56
4.4	Pharmacokinetic characteristics of Gemifloxacin tablets .....	56
4.5.	Stability of Gemifloxacin tablets at two different time periods .....	59
4.6	Repeatability of the test .....	63
4.7	Results from recovery studies .....	64
4.8	Ruggedness of Gemifloxacin .....	64
4.9	Robustness of Gemifloxacin .....	65
4.10	Dissolution settings for analysis .....	67
4.11	Regression analysis of Ropinirole tablets.....	68
4.12	Precision particulars .....	72
4.13	Coefficient of determination ( $R^2$ ) and MSC.....	73
4.14	Mathematical evaluation of $f_1$ and $f_2$ .....	74
4.15	Dissolution efficiency in various medium .....	77
4.16	Repeatability and intermediate precision of the dissolution method	78
4.17	Stability study including parameter evaluation .....	79
4.18	Ropinirole release compared with LCMS/MS method .....	80

4.19	Dissolution profile of Levetiracetam .....	81
4.20	Mean percent of drug released and absorbed .....	82
4.21	Mean pharmacokinetic parameters .....	83
4.22	Repeatability and intermediate precision of the dissolution method	90
4.23	Results from accuracy for recovery studies .....	90
4.24	Retention time varies due to robustness.....	91
4.25	Ruggedness of Levetiracetam .....	91
4.26	Dissolution efficiency comparison .....	92

## LIST OF FIGURES

<b>Fig.</b>	<b>Title</b>	<b>Page</b>
2.1	Different levels of IVIVC.....	7
2.2	Illustrative representation of purpose of IVIVC .....	8
2.3	Various stages involved during dissolution study .....	14
2.4	Scheme of the BCS classification .....	15
2.5	Chemical structure of Gemifloxacin .....	19
2.6	Chemical structure of Ropinirole .....	21
2.7	Chemical structure of Levetiracetam .....	22
2.8	Global proportion of levels .....	25
2.9	Dissolution process .....	27
3.1	Steps involved in the process of dissolution .....	29
3.2	Dissolution of immediate release tablets .....	32
3.3	Schematic diagram of HPLC system .....	35
3.4	HPLC for dosage form development and validation.....	43
3.5	Methodology .....	48
4.1 a	Dissolution profile of Gemifloxacin test product.....	49
4.1 b	Dissolution profile of Gemifloxacin reference product .....	50
4.2 a	Assessment of dissolution profile-test and reference samples of Gemifloxacin .....	51
4.2 b	Plasma profile of reference and test samples of Gemifloxacin .....	52
4.3	In vivo absorption profile of reference and test products of Gemifloxacin .....	53
4.4	Chromatogram of Gemifloxacin standard along with internal standard Venlafaxine .....	54
4.5	Correlation graph-IVIVC of Gemifloxacin .....	55
4.6	Dissolution profile of Gemifloxacin tablets in different medium .....	57

4.7	Influence of rotational speed on dissolution of Gemifloxacin tablets	59
4.8	Dissolution profile of commercially available Gemifloxacin tablets ...	60
4.9	Linearity of standard Gemifloxacin .....	61
4.10	UV Spectrum of Gemifloxacin .....	62
4.11	Dissolution profile of Ropinirole with respect to change in RPM .....	67
4.12	Dissolution profile of Ropinirole using different medium .....	68
4.13	Ropinirole-Percentage of dose absorbed vs Percentage of dose dissolved .....	70
4.14	Typical Ropinirole standard chromatogram .....	70
4.15.	Linearity of standard Ropinirole .....	71
4.16	Chromatogram showing no interference of Ropinirole .....	71
4.17	Product stability at various time period .....	74
4.18	Dissolution profile of Ropinirole tablets in different media .....	75
4.19	Rotational influence on release of Ropinirole.....	76
4.20	Stability study of Ropinirole .....	80
4.21	IVIVC graph of Levetiracetam .....	84
4.22	Dissolution profile of Levetiracetam in different medium.....	85
4.23.	Influence of rotational speed in dissolution .....	86
4.24	(UV) Absorbance vs wavelength specificity of Levetiracetam .....	87
4.25	Chromatogram of placebo solution measured at 217 nm .....	87
4.26	Levetiracetam standard detected at 217 nm .....	88
4.27	Regression line of Levetiracetam standard .....	89
4.28	Percent of drug release .....	93
4.29	Representation of paddle speed influence during dissolution .....	96
