### About the Institution

The first self-financing Engineering College in the name of Bharath Institute of Science and Technology (BIST) was started in Tamil Nadu in 1984 by Sri Lakshmi Ammal Educational Trust, established by the academic visionary Dr.S.Jagathrakshakan. The trust then started Sree Balaji Dental College and Hospital, in 1989. Sree Balaji Dental College and Hospital was first recognized as a Deemed to be University by MHRD in July 2002, under section 3 of the UGC Act 1956 under the new trust Bharath Institute of Higher Education and Research (BIHER). The Bharath Institute of Science and Technology (BIST) was then brought under the ambit of Bharath Institute of Higher Education and Research (BIHER) in January 2003.

Thus, Bharath Institute of Higher Education and Research (BIHER) is providing multi-stream, multi-cultural and high quality education to nearly 10000 students from around the world. It is functioning in a sprawling area of 305 acres of land with 1.3 crore sq.ft buildings located in 6 Campuses both in Tamil Nadu and Pudhucherry with the state of the art infrastructure facilities. There are well qualified Teaching Faculty members to teach various UG and PG programmes and to guide Ph.D. Research.

### About the Department

The Department of Chemistry under faculty of arts and sciences is functioning from 2015 onwards. There are Four well experienced, highly qualified and dedicated faculty members with different specializations in Chemistry. The department offers M.Phil., and Ph.D. programs in chemistry. The faculty members have got patents and have published many papers in indexed journals and authored many books.

### Workshop Objective

Materials play an ever increasing role in our modern society. Materials with designed properties serving specified application. Synthesis of the new Materials widens the scope of their application from material to biological science at the molecular level. It paves the way for the development of innovative molecules to meet the needs of key industrial sectors including energy, healthcare and telecommunications. The primary objective of this workshop is to exchange the knowledge among the researchers, technologists, academicians about the state of art in materials and their applications.

#### Focusing Fields

Advanced energy materials  
Nanomaterials  
Drug delivery system  
Building Materials  
Eco Friendly Materials  
Hydrogen and Fuel Cells  
Functional Materials  
Surface Coatings  
Material Processing  
Sensors  
Polymeric materials  
Bio materials and bio devices  
Optical, electronic and magnetic materials  
Structural materials  
Computational materials  
Semiconductors  
Composite and Hybrid materials  
Soft & Smart Materials  
Materials for Photocatalysis  
Materials for Dye-sensitized solar cells
