About the Institution

The first self-financing Engineering College in the name of Bharath Institute of Science and Technology (BIST) was started in Tamil Nadu in 1984 by Sri Lakshmi Annam Educational Trust established by the academic visionary Dr.S.Jagathrakshakan. The trust then started Sree Balaji Dental College and Hospital in 1989. Sree Balaji Dental College and Hospital was first recognized as a Deemed to be University by MHRD in July 2002, under section 3 of the UGC Act 1956 under the new trust Bharath Institute of Higher Education and Research (BIHER). The Bharath Institute of Science and Technology (BIST) was then brought under the ambit of Bharath Institute of Higher Education and Research (BIHER) in January 2003.

Thus, Bharath Institute of Higher Education and Research (BIHER) is providing multi-stream, multi-cultural and high quality education to nearly 10000 students from around the world. It is functioning in a sprawling area of 305 acres of land with 1.3 crore sq ft buildings located in 6 Campuses both in Tamil Nadu and Puducherry with the state of the art infrastructure facilities. There are well qualified Teaching Faculty members to teach various UG and PG programmes and to guide Ph.D. Research.

About the Department

The Department of Biotechnology and Microbiology was established in 2015 to nurture the young minds with research and advanced technology based learning in the interdisciplinary areas of biological sciences. The main objective of the Department is to provide academic training and conduct the interdisciplinary research with a particular emphasis on extending the knowledge towards the development of the innovative products.

The Faculty members are frequently publishing research articles in reputed National and International Journals. They deliver Lectures in National and International Conferences / Symposia / Workshops and publish research articles.

Seminar Objectives

The main objective is to expand the knowledge of the stiffness and flexibility methods studied in the basic structural analysis courses. This seminar is also expected to enable a good understanding of how standard software packages and students/researchers/academicians will be able to implement the method developing their own computer program to analyze structures.
