Two Day Workshop on “Method of Qualitative Research”

OBJECTIVE

To provide a comprehensive over view of qualitative research framework and nuances of designing studies using qualitative methods

To provide hands on training in the applications of ATLASTI and NVIVO software in qualitative research data processing

To acquire expertise in identifying appropriate qualitative tools for different types of research objectives

Basic understanding of the concept of qualitative research methodology is necessary to appreciate the program. Hence, the workshop will start with some theoretical input sessions so as to help the participants to brush the knowledge in basic research methods.

These sessions will be followed by software enabled practical training with demonstration. Thus both theoretical and practical sessions will be arranged so that the participants could understand, appreciate and able to meaningfully interpret the output.
