

Bharath
INSTITUTE OF HIGHER EDUCATION AND RESEARCH
(Declared as Deemed - to - be - University under section 3 of UGC Act 1956)

BHARATH INSTITUTE OF SCIENCE AND TECHNOLOGY

No.173, Agharam Road, Selaiyur, Chennai , T.N - 600 073.

Topic: BUSINESS ETHICS AND ENVIRONMENTAL SCIENCES

Type of Course: value added course

School of Civil and infrastructure Engineering

Pre-Requisites: BUILDING MATERIALS AND TESTING METHODS

Course Duration: 60 hours

Intended Audience: Civil Engineering Students

Industries Applicable To: construction Companies, civil engineering companies.

Co ordinator: R. Chitra

Objective:

1. To create an awareness of the environment in which business operates.
2. To equip students with tools and techniques to analyse the Business environment that facilitates in making informed business decisions.
3. To know business ethics and the importance of it in business.

Outcomes:

1. Students will gain knowledge about the different factors affecting Business.
2. Students will understand the importance of ethics in business.
3. An awareness of e-governance and corporate governance in banks.

COURSE OUTLINE:

This course will familiarise students with the content and the processes within ethical decision-making concerning the natural and social environment. This course will introduce students to the main ethical theories pertaining to the environment and include introduction to anthropocentric, biocentric and ecocentric viewpoints. The course considers the impacts of ethical considerations on a range of real world environmental situations including ethics in stakeholder consultation, working with Indigenous peoples and ethics within environmental management. The course will provide case studies to assist build student understanding of how world views and ethical considerations influence and shape decision making and develop environmental management.

In an interconnected global business environment, the impacts of business activity are coming under increased scrutiny from a range of stakeholders. Managers now face increasing pressure to balance short- and long-term needs for economic, social and environmental sustainability. This course equips business professionals with key capabilities for managing and leading organisations more ethically and sustainably. Topics will include ethical thinking, Corporate social and environmental responsibility, stakeholder management, professional ethics and ethical leadership.
