**COURSE OUTLINE:**

This course / workshop is designed for undergraduates. The course intends to give comprehensive knowledge on surgical etiquettes and basic skills required to carry out surgical procedures in their own practise or when need arises.

The content of the course will throw light on operating room environment; sterilisation and asepsis with hands on experience of scrubbing methods and Draping and Gloving processes. Display of various instruments for touch and feel to familiarise the participants with their method of use. Participants will also be able to practise incisions; flap reflection and suturing techniques on artificial skin models under guidance from mentors. Hands on for some of the latest techniques in surgery.

Course coordinator: Associate Professor & Assistant Professor of General surgery

Course Duration: 30 hours
