INTRODUCTION TO ADMINISTRATIVE LAW STUDIES

COURSE OBJECTIVE

Introduction to Administrative law and its branches, It deals with the law relating to administration and deals with modern legal practices and

systems. The objective of the course is to examine the practical and legal foundation of the modern administrative state.

Administrative law covers topics like the legal framework that determines the decision making of agency, the roles of agency in interpreting regulatory and statutory law, judicial review of the agency action and rationales for delegation to administrative agencies. The course will talk about these topics through a combination of examples and cases. Introduction to Administrative law studies was designed to provide a proper insight into the body of administrative law of India. It is a highly specialized domain of the law that touches the areas like legal codes, agency rules, government regulations and precedents.

COURSE ON INTRODUCTION TO HUMAN VALUES AND PROFESSIONAL ETHICS

SYLLABUS

Course Outcome:

1. The students are able to see that verification on the basis of natural acceptance and experiential validation through living is the only way to verify right or wrong, and referring to any external source like text or instrument or any other person cannot enable them to verify with authenticity; it will only develop assumptions.
2. The students are able to see that their practice in living is not in harmony with their natural acceptance most of the time, and all they need to do is to refer to their natural acceptance to remove this disharmony.
3. The students are able to see that lack of right understanding leading to lack of relationship is the major cause of problems in their family and not the lack of physical facilities in most of the cases, while they have given higher priority to earning of physical facilities in their life ignoring relationships and not being aware that right understanding is the most important requirement for any human being.
4. The students feel confident that they can understand the whole existence; nothing is a mystery in this existence. They are also able to see the interconnectedness in the nature, and point out how different courses of study relate to the different units and levels. Also they are able to make out how these courses can be made appropriate and holistic.
5. The students are able to grasp the right utilization of their knowledge in their streams of Technology/Engineering/ Management to ensure mutually enriching and recyclable productions systems.

MODULE I: INTRODUCTION TO VALUE EDUCATION - Understanding Value Education – Self-exploration as the Process for Value Education - Continuous Happiness and Prosperity – The Basic Human Aspirations - Right Understanding, Relationship and Physical Facilities - Happiness and Prosperity – Current Scenario - Method to Fulfill the Basic Human Aspirations.
